

TAMARAC: THE CENTER FOR HEALTH & WELL-BEING | FREMONT, MI

Project Type:	Exterior/Interior Renovation
Size:	45,000 Sq. Ft.
Project Schedule:	February 2007 - March 2008
Architect:	Integrated Architecture
Owner:	Gerber Memorial Hospital

Description

The transformation of an existing Wal-Mart location into this LEED Certified wellness center for Gerber Memorial Hospital represents one of the most dramatic renovations in Lamar Construction's portfolio.

This striking facility consists of a conventional steel structure with a design that makes dramatic use of glass curtain wall and architectural metal panel. The interior spaces include a large and inviting lobby with sitting area and fireplace, a fitness center and indoor jogging track, a therapy pool and heated whirlpool, a child development center, and various other rooms dedicated to physical therapy and spa treatments.
